Baby Chicks

UPPER SANDUSKY · OHIO

February 15, 1936

G. B. Rogers
Northwood Narrows, N. H.

Dear Friend:

A short time ago our new 1936 Catalog was mailed, and we were glad to send you one of the first copies. I am sure that you found the description of our Breeding Program for our Matings very interesting, because we have some of the finest Trapnest Pedigreed Breeding in America.

With Feed Prices going steadily downward and Egg Prices remaining at profitable levels, all indications point to the fact that Commercial Eggs will be increasingly profitable for the next 18 months. Therefore, a fine flock of Pullets next Fall will probably be the best profit maker on the Farm.

Until February 29th, we are allowing a 7% discount on all orders for Baby Chicks. If you place your order this month, you can take advantage of this discount by paying a deposit of \$1.00 per 100 chicks. You need not pay the balance until 15 days before shipment is made. We will also guarantee delivery of your chicks during any week of the season which you select if you place your order this month. We are hatching twice weekly in all breeds.

Like many Poultry Raisers, you are probably thinking about the vigor and Livability Breeding of your chicks as well as their egg production breeding. It will interest you, therefore, to know that in selecting more than 500 Pedigreed and R.O.P. Males for the improvement of our 1936 Matings, we have been especially particular about obtaining them from stock which is bred for long-life and high Livability.

In addition, all of these fine Males are from parent stock with egg records from 200 to 307 eggs per year.

Since 1920, we have been improving our matings by careful selection for big Body Weight, Sturdy Bone, Health and Egg Production characteristics. For 9 years our stock has been tested for Pullorum (B.W.D.).

We hope that you will take advantage of the 7% discount offer by sending in your order this month. Enclosed is a convenient order blank.

A waiting your early reply, I am

Sincerely yours,

THE EAGLE NEST HATCHERY CO.

per Earl Little

SATISFACTION!

WHAT OUR CUSTOMERS SAY

Eagle Nest Hatchery
Upper Sandusky, Ohio

December 30, 1935

I am mailing you my order for White Wyandottes to take advantage of the discount price.

Will take this opportunity to say your chicks are the strongest and healthiest we have ever raised. Losses are very small, practically none from disease. The losses we had were mostly from crowding.

We received our chicks on May 19th, sold our first hatch of cockerels on August 1st. The average weight was $3\frac{1}{2}$ pounds. The pullets started laying on October 4th. At present we are getting 55 to 65 eggs a day from 90 hens. This is the 4th consecutive year we have ordered Eagle Nest Chicks and we have been very satisfied customers.

With best wishes for a prosperous 1936, we are

Sincerely yours,
Julius Magnuson - Michigan

Dear Sir:

January 15, 1936

The Eagle Nest Pullets are still maintaining their good record. Out of 63 eggs from the 90 pullets yesterday only 5 were pullet size, the rest were mediums and large. We rarely have more than 2 or 3 eggs a week, marked down into the standard grade here at the Auction. That certainly speaks volumes for the quality of the eggs, the Eagle Nest Pullets lay as the grading system at the Auction is exceptionally strict.

Yours truly,
Mrs. E. H. Amos - Ohio

Eagle Nest Hatchery
Upper Sandusky, Ohio

February 12, 1936

Dear Sirs:

I am sending for your price list on Rhode Island Reds. Send price list and Catalog.

In regards to my order last year, the chicks were fine and the pullets are laying about 60%.

Yours truly,
W. H. Peacock - W. Va.

Eagle Nest Hatchery
Upper Sandusky, Ohio

February 7, 1936

Dear Sirs:

Received your literature and would like to order 500 Extra Special White Rocks, delivery week of March 1st.

Bought from 10 different hatcheries last year, 5000 chicks and have found yours to be the most satisfactory. Sold some of your pullets and customers are also well satisfied. You can expect more orders later

Mrs. V. I. Mandeville - Penna.

Eagle Nest Hatchery
Upper Sandusky, Ohio

February 6, 1936

Dear Sirs: I read testimonials in your catalog but I want you to take notice of this. I bought 500 extra special mating chicks and had about 220 pullets to put in the hen house. I lost very few and culled them down to about 200 pullets and probably 50 or 75 old hens with them. Am getting 150 to 160 eggs a day with the thermometer 10 to 20 degrees below zero and a blizzard. I figured they are laying about 60%.

We would like to have sent a picture.

Harold Shaw - New York

1936 EAGLE NEST PRICE LIST

7 Per cent Discount If Order Is Placed Before February 29th

EAGLE NEST SPECIAL "A" MATINGS

Our Special Matings consist of choice females which have been carefully selected for Large Body Weight, Vigor, sturdy bone and good Egg Production characters. These females are carefully mated to outstanding Vigorous Males many of which are sons of the Pedigreed or R. O. P. Males from our selected Matings. Our special "A" Matings are much better than average quality throughout and our purpose is to supply our customers with a truly good Chick at the lowest possible price.

EAGLE NEST SPECIAL "AA" MATINGS

Many of the Birds in these matings (both Males and Females) are stock direct from our selected "AAA" Matings and are 200 to 288 Egg Pedigreed and R. O. P. Sired, or from improvement stock direct from recognized Production Strains. They have 50% or more of the bloodlines of Trapnest Strains which have made high Records in National Egg Laying Contests. In addition to their Trapnest Bloodlines, the Birds in our extra special "AA" Matings have exceptionally good standard quality and Body Type. We have carefully selected the best Males from thousands and each one is an outstanding Vigorous Bird in appearance with well developed breasts, broad backs and sturdy legs. You will obtain a flock of very nice, rugged pullets from Eagle Nest extra special "AA" Chicks and they have the breeding and vigor to give you high Flock Average in Egg Production.
